

# AWS ASSOCIATE

## COURSE BROCHURE

### Course Content

#### Module 1 : Design Secure Architectures

- 1.1 : Design secure access to AWS resources
- 1.2 : Design secure workloads and applications
- 1.3 : Determine appropriate data security controls

#### Module 2 : Design Resilient Architectures

- 2.1 : Design scalable and loosely coupled architectures
- 2.2 : Design highly available and /or fault-tolerant architectures

#### Module 3 : Design High-Performing Architectures

- 3.1 : Determine high-performing and /or scalable storage solutions
- 3.2 : Design high-performing and elastic compute solutions
- 3.3 : Determine high-performing database solutions
- 3.4 : Determine high-performing and /or scalable network architectures
- 3.5 : Determine high-performing data ingestions and transformation solutions

#### Module 4 : Design Cost-Optimized Architectures

- 4.1 : Design cost-optimized storage solutions
- 4.2 : Design cost-optimized compute solutions
- 4.3 : Design cost-optimized database solutions
- 4.4 : Design cost-optimized network architecture

### About Course

#### AWS Associate Training

The AWS Associate Course by CyberYaan Training and Consultancy is a comprehensive program for individuals aiming to master Amazon Web Services. Tailored for beginners, this course covers the fundamentals of cloud computing, AWS services, and hands-on implementation. With expert guidance, participants learn to design, deploy, and manage scalable and secure solutions. Ideal for those pursuing AWS certifications, the course combines theoretical knowledge with practical skills, ensuring a solid foundation for cloud professionals entering the dynamic world of Amazon Web Services.

**Duration**  
40 Hours

**Language**  
Hindi & English

**Certificate**  
Yes

*"Elevate your cloud journey with our AWS Associate Course – where innovation meets instruction for mastering the art of Amazon Web Services, opening the door to limitless possibilities in the cloud!"*
